

On 8-4-2022 - I was talking to Wally Hutchins on the phone about some product that he ate in the store in Frisco that he said was so good. He let me know that Him and his Dad was on to something ~~Big~~ Big and that they could possibly pay me 40% more if I wanted to join the winning team. They had a lot of Big Hitters backing them. They already have a spot in Southlake and Orlando, FL Picked out.

He sent a text of their new logo
the original Hutchins BBQ.

Roy Hutchins came by the store to bring Tracy Hutchins a card. I walked outside with him and he started telling me that we are running the business in the ground for using open prairie brackets. He told me that ~~the~~ his older son Wesley Hutchins is getting bad feed back all over town from everyone that Hutchins has completely went down hill. He told me that I work for two drug ~~addi~~ addict drunks. He told me that they were finished that they will not be around much longer. That there is a bigger monster coming after then Wesley Hutchins. That they don't stand a chance. He had me worried about my future with ~~the~~ this company.
